Certificates

Certificates

All-in-One

Business-grade email

Full-featured email under your domain including rules, folders and anti-spam.

Conferences

Audio and video calls for up to 1000 attendees including recording.

Documents

Office-compatible productivity apps with collaborative editing.

TeamChat

Project chat for focused collaboration.

We backup everything

As opposed to Google Workspace we backup all user data and retain the backups for 30 days. And we are able to provide the backups upon request.

The same 99.9% uptime guarantee

Just like Google Workspace, we guarantee 99.9% uptime. With our state-of-the-art monitoring and included 24/7 support we are able to immediately respond to emergencies.

You choose where your data is stored

Unlike with Google Workspace, you get to choose the data center where all your data will be stored. And where it remains no matter what.

Unlimited recording

Whether you're on IceWarp plan or on our Desktop plan, unlimited recording of your conferences is included at no additional cost. So don't think twice about pushing that Record button – you don't want any good idea to slip through the cracks.

Email and team work integration

IceWarp is all about helping you to work in tight sync, and that's why we integrate email with team collaboration. Share an email with your coworkers or get help composing your mailing, your team is just two clicks away.

Corner-shop like feeling

We don't have 190,000 employees, so we can personally attend to our customers, address their unique needs and deliver custom solutions. Need to link up IceWarp with your system? Adjust internal processes, add a new feature or install a new SSL certificate? We're here for you.

SUMMARY

Although Google Workspace is a big player, it lacks many important features. Whether it's real team work offered by TeamChat or other functions within such an important conferencing. Many users may also miss any ability to work on a desktop application or bother with frequent changes to the product and its philosophy.
